## *Now, more than ever, rely on Henry Schein Brand Products!*

**Save without compromising on excellence,  
with our own high-quality Henry Schein Brand.**

We offer over 6,000 quality products you can trust to fulfill your practice needs—each bearing the Henry Schein Seal of Excellence—your guarantee of satisfaction.

- Categories for disposables, diagnostics, instruments, testing kits, and most common items
- Fulfillment opt-in program for maximizing your supply purchases
- Extra benefits for PRIVILEGES Members
- Consultation on product mix that is right for you

**HENRY SCHEIN®**  
BRAND PRODUCTS

**What's  
Your Fave?**

What do you do when a patient presents  
with a fever and sore throat?

**We have the answer.**

**And the answer is simple. Test with QuickVue.<sup>®</sup>**

You're already familiar with the market-leading QuickVue  
Influenza A+B test and our CLIA-waived QuickVue RSV  
test for viral infections. And you're already familiar with our  
QuickVue Strep A tests for bacterial throat infections.

But did you know that most sore throats are caused by viruses  
and not bacteria? Upper respiratory infections can be very  
similar in clinical symptoms, so the next time your patient comes  
in with a fever or sore throat make sure you have the QuickVue  
rapid diagnostic trio of tests ready to help you in your diagnosis.

**QuickVue. The right choice. The dependable choice.**

For more information, contact  
your Henry Schein representative.

**QUIDEL**  
CORPORATION

**QuickVue® Influenza Tests**

An immunoassay for detecting influenza types A and B. Three simple steps with results in 10 minutes or less. Color-coded procedure card helps demonstrate each step of test. Kit contains positive and negative controls, and stores at room temperature.

- Detects both A and B types of influenza
- Results in 10 minutes or less, right in the exam room
- CLIA waived
- Prompt diagnosis and treatment: Most patients tested can be diagnosed and treated in a single office visit
- Information for better patient management decisions
- 1 step (nasal wash/aspirate), 3 steps (nasal swab)
- Color-coded procedure card helps demonstrate each step of test
- No instrumentation needed
- Available in both 10-test and 25-test kit sizes
- Room-temperature storage with up to 24-month shelf life from date of manufacture
- 10-test kit is individually packaged for convenient single-use testing and disposal

#20183, A+B Test, Differentiates Type A or Type B  
(227-5611) .....25/box

#00317, Non-differential  
(227-9012) .....25/box

(986-3022) .....25/pkg

#20171, Transport Tubes\* with 25 sterile foam swabs inside plastic transport tubes  
(227-3550) .....25/box

CPT® Codes: Influenza A, 87804QW/Influenza B, 87804-59

**QUIDEL**  
CORPORATION

**QuickVue® RSV Test**

- Easy to use
- Dipstick format
- 2-color result in 15 minutes
- 3-step procedure
- Room-temperature storage
- Built-in internal controls
- Kit includes external controls
- CLIA waived

(227-0581) .....20/box

CPT® Code: 87807QW

**BinaxNOW®  
Influenza  
A & B Tests**

Rapid test for identification and differentiation of influenza A and B, using specimen collected by nasal washes/aspirates, nasal swabs and nasopharyngeal swabs.

- CLIA waived
- Differentiates types A and B on the same card
- Easy to use: no additional reagents needed
- On-board extraction
- 15-minute results
- Same specimen can be used with BinaxNOW® RSV test

#416-022  
(153-9781) .....22/box

(512-5997) .....20/box

CPT Code: 87807QW

**BinaxNOW®  
S. pneumoniae  
Urinary Antigen Test**

An *in vitro* rapid immunochromatographic assay for the qualitative detection of *S. pneumoniae* antigen in the urine of patients with pneumonia and in the cerebral spinal fluid (CSF) of patients with meningitis. In conjunction with culture and other methods, it is intended to aid in the diagnosis of both pneumococcal pneumonia and pneumococcal meningitis.

- Dependable accuracy
- No results negatively affected by previous antibiotic use
- Self-contained, swab-based device—no tubes or pipettes
- Easy to use: insert urine- or CSF-saturated swab into test card, add reagent, and read results in 15 minutes
- Both built-in and external positive and negative controls ensure test viability
- Accuracy/sensitivity: urine: 86% sensitivity/94% specificity; CSF: 97% sensitivity/99% specificity

#710-000, 22-Test Kit

CPT® Code: 87449

**genzyme**  
Diagnostics

**OSOM® Influenza A & B Test Kit**

*In vitro* diagnostic test for the qualitative detection of influenza A and B antigens from nasal-swab specimens.

- Differentiates between influenza A and B
- Easy to read: 3 distinct lines
- 2 extra test sticks included for external QC testing
- Nasal swab specimens
- Less than 1 minute hands-on time; results in 10 minutes
- Room-temperature storage
- Moderately complex

(106-3126) .....25 tests/kit

#191, Influenza A & B Control Kit

(106-3132) .....ea

CPT® Codes: Influenza A and B, 87804-59

**Clearview®  
RSV Test**

A 15-minute, four-step test for the qualitative detection of RSV. For use with nasopharyngeal swabs and nasal aspirate specimens (approved claim: in children less than 6 years and adults more than 60).

- CLIA waived
- 93.9% sensitivity; 97.7% specificity
- Room-temperature storage
- Built-in control to ensure accuracy
- Shelf life up to 12 months from date of manufacture

(512-8933) .....20/box

Contains: 20 test devices, 2 mL extraction reagent solution, 1 mL each positive & negative controls, & 40 disposable pipettes.

## The #1 Rapid Tests Used in Hospitals and Physician Offices Nationwide<sup>1</sup>

### BinaxNOW<sup>®</sup> Influenza A & B

- Packaged with NP Swab, a CDC preferred specimen type<sup>2</sup>
- Validated for NP Swab, Nasal Swab and Nasal Wash/Aspirate
- Compatible with a dozen common viral transport medias<sup>3</sup>
- Easy Procedure with On Board extraction
- Enclosed card format reduces pathogen exposure
- 24 month shelf life<sup>4</sup>

CLIA  
Waived

### BinaxNOW<sup>®</sup> RSV

- Results in 15 minutes with no hands-on time
- Onboard extraction: no extra steps
- Nasopharyngeal swab and nasal wash
- 24 month shelf life<sup>4</sup>

### ONESTEP+ STREP A CASSETTE TEST

Rapid chromatographic immunoassay for the qualitative detection of Strep A antigen from throat swab specimens to aid in diagnosing of Group A streptococcal infection. Provides results in 5 minutes. Kit can be stored at room temperature or refrigerated. Test device must remain in sealed pouch until use. Do not freeze. For professional in vitro diagnostic use only.

- CLIA waived
- Room-temperature storage
- Results in 5 minutes or less

Complete Kit  
(900-4051) .....25/box  
CPT® Code: 87880QW

### ONESTEP+ STREP A TEST STRIPS

- CLIA waived
  - Room-temperature storage
  - Canister packaging for ease of multiple testing
  - Walk-away procedure
- (107-4050) .....25/box  
CPT® Code: 87880QW

### QuickVue In-Line® One-Step Strep A Test

True one-step test with a unique in-line extraction and rapid procedure that allows testing to occur right at the point of care. Two-color results give you clear readability, as well as proven accuracy and dependable results. Kit stores at room temperature and includes positive and negative external controls.

- Easy to use; easy to read
- 2-color, rapid results in 5 minutes
- Room-temperature storage
- Built-in controls for CLIA compliance

#0343  
(227-4207) .....25/box  
CPT® Code: 87880QW

### QuickVue® Dipstick Strep A Test

- CLIA waived
- Results in 5 minutes or less
- 95% overall agreement
- 2-color endpoint: results are easy to read and interpret
- Room-temperature storage
- Built-in positive and negative controls

#20108  
(227-0611) .....50/box  
CPT® Code: 87880QW

### QuickVue+® Strep A Test

- 95% sensitivity; 98% specificity
- 98% overall agreement
- Easy test procedure
- ± endpoint
- Built-in workstation
- Room-temperature storage
- Built-in controls for CLIA compliance
- Moderately complex

# The osom<sup>®</sup>

truth about rapid flu testing

Visit us at  
[osomflu.com](http://osomflu.com)  
for details  
on our flu  
promotion!

There's been some confusion and concern with healthcare professionals regarding the use of rapid influenza diagnostic tests (RIDTs) for the detection of seasonal or novel influenza. Some tests showed poor sensitivity during the 2009 outbreak.

Yes, there are more sensitive diagnostics available, but they are more time consuming, expensive, and complex. Faster is better, and tests of greater sensitivity are not readily available in the majority of laboratories. So, RIDTs continue to be a useful tool.

Genzyme Diagnostics' OSOM<sup>®</sup> Influenza A&B Test differentiates between flu A and B with results in 10 minutes and requires less than one minute hands-on time. The test is objective, easy-to-use, and detects H1N1 strains\*. With the support of our experienced team of medical technologists and skilled professionals, you can be confident that the OSOM<sup>®</sup> Influenza A&B Test delivers the highest quality available. The OSOM<sup>®</sup> truth, yes awesome.

For more information 800 332 1042 or [www.genzymediagnosics.com](http://www.genzymediagnosics.com)

**genzyme**  
Diagnostics

\* Although this test has been shown to detect the Mexico/4108/2009 H1N1 virus cultured from a positive human respiratory specimen, the performance characteristics of this device with clinical specimens that are positive for the 2009 H1N1 influenza virus have not been established.

**OSOM®  
Ultra Strep A Test**

Ultrasensitive strep A test with the ease of use and rapid results your busy practice needs. Studies show sensitivity of OSOM Ultra Strep A test and standard single-swab culture method are not statistically different.

- CLIA waived
- Easy to use
- Easy-to-read, 2-color results in minutes
- Room-temperature storage
- Includes positive and negative controls

#147

## CAN REAL-TIME RESULTS LEAD TO BETTER OUTCOMES?

### The potential benefits of point-of-care A1C testing

- The ADA recommends that healthcare professionals use A1C point-of-care testing for timely decisions on therapy changes<sup>1</sup>
- Giving patients with diabetes on-the-spot feedback on their A1C number may result in as much as a 1% point reduction in their A1C overtime<sup>2</sup>
- A 1% point reduction in A1C may lower the risk of complications by up to 40%<sup>3\*</sup>

### More efficient than the lab

- Results in 5 minutes
- Portable – use in multiple exam rooms
- Small (5µL) blood sample
- Easy to use – minimal training required
- No maintenance

### Key features

- Lab accuracy
- National Glycohemoglobin Standardization Program (NGSP) certified
- CLIA waived
- Reimbursable – bill to CPT code 83037

## Bayer's A1CNow+ Multi-Test A1C System

Helps You Improve Your Patients' A1C Results. Bayer's A1CNow+ provides you with a fast and easy way of obtaining accurate A1C results in your office. This innovative technology enables you to communicate face-to-face with your patients about their diabetes control.

ORDER NUMBER	DESCRIPTION
DC03024	A1CNow+ Multi-Test A1C System, 1 kit - 10/bx
DC03021	A1CNow+ Multi-Test A1C System, 1 kit - 20/bx

### Basic features

- Test time - 5 Seconds
- Memory - 480 results
- Sample size - 0.6µL

### Accuracy

- Auto-calibration
- No manual coding
- Automatic Hematocrit correction

### Advanced features

- 2 Settings —Basic (L1) and Advanced (L2 modes)
- 7-, 14-, and 30-day averages
- 7-day HI and LO summary
- Individual HI and LO ranges
- Pre- and post-meal markers
- post-meal test reminder

## Bayer's CONTOUR Blood Glucose Monitoring System

For fast, accurate results using No Coding™ technology, automatic underfill detection, control marking and temperature correction. PC download option available. For use with CONTOUR Blood Glucose Test Strips.

ORDER NUMBER	DESCRIPTION
DC07189	CONTOUR Blood Glucose Monitoring System, each

\* In non-pregnant adults with type 2 diabetes.

## Bayer's CONTOUR® Blood Glucose Meter

Cleared for multiple site testing, which means more choice and flexibility about where you test: finger, forearm, palm, abdomen, or thigh—it's up to you. However, be sure to talk with your healthcare professional first to ensure that alternate site testing is right for you.

- No coding required
- Automatic underfill detection
- Automatic control marking
- Automatic temperature control
- Small sample size (0.6 µL)
- Quick testing time—results in 15 seconds
- Saves information for up to 240 tests with time and date

# Performance & Confidence

Give your patients  
a **TRUE EDGE** in  
diabetes testing  
with these  
high performing,  
**no-coding** meters.

## TRUEresult® and TRUE2go®

Blood Glucose Monitoring Systems

- Results in as fast as 4 seconds
- Tiny, 0.5 microliter blood sample

*Both systems utilize TRUEtest™ Strips featuring  
Quad-Electrode™ Laser Accuracy.*

## TRUEbalance™

Blood Glucose Monitoring System

- Accurate results in 10 seconds
- Small, 1.0 microliter blood sample

*Utilizes TRUEbalance™ Test Strips featuring  
patented TRUEfill® technology.*

## Clinically Proven Accuracy.

*TRUEresult® performs as well as leading brands.<sup>1</sup>*

Together with TRUEmanager™ data management software, these meters make it easy  
for your patients to log results, streamlining the reimbursement process.

## More Power to You.

### OneTouch<sup>®</sup> Ultra<sup>®</sup>2

567-0390

A fast and simple way to see the effect of food, on your blood sugar results.

\*Allows for a less painful stick when used with the OneTouch<sup>®</sup> UltraSoft<sup>®</sup> Adjustable Blood Sampler and OneTouch<sup>®</sup> UltraSoft<sup>®</sup> Lancets.

### OneTouch<sup>®</sup> UltraMini<sup>®</sup>

567-7576

A simple way to check your blood sugar on the go.

### OneTouch<sup>®</sup> Ultra<sup>®</sup> Blue Test Strips

567-0076 – 100/Bx

567-0073 – 50/Bx

567-6191 – 25/Bx

Measures every blood sample, not once but twice

### OneTouch<sup>®</sup> SureSoft<sup>®</sup>

155-5267

567-0000

For use in a clinical setting with double Sure Technology. Electro-polished technology for patient comfort

## Privileges Rewards

**Buy what you need,  
get what you want**

With our **PRIVILEGES PROGRAM**, we believe in rewarding our loyal customers with products and services that will help their business stay competitive and profitable, now more than ever. By using any of our electronic ordering solutions, **PRIVILEGES** members earn reward points (one point for each dollar spent), which are automatically posted in your online **PRIVILEGES** Rewards account.

As a **PRIVILEGES** member, you are entitled to redeem value certificates earning you up to 50,000 bonus points for your equipment purchases.

Visit your account often to check your points, browse the gift catalog and redeem for thousands of brand-name gift items— including **FREE** travel and event tickets! You can reward an employee or redecorate your office with **PRIVILEGES** points!

Sign up now to start enjoying all the special attention and exclusive benefits that you deserve. Membership is **FREE**!

To learn more about the Henry Schein **PRIVILEGES PROGRAM**, talk with your Sales Consultant or visit [www.henryschein.com/privilegesmd](http://www.henryschein.com/privilegesmd) to download an application.

As a **PRIVILEGES** member, you'll receive:

- **PRIVILEGES** Rewards points for all electronic purchases
- Value Certificates to reduce your expenses and offer you the opportunity to earn Bonus Points
- **PRIVILEGES** Monthly E-Promotions
- Exclusive Quarterly E-Newsletters
- Access to Practice Marketing Services

## A1CNow® Test

The handheld A1CNow+ monitor provides accurate in-office A1C results, allowing physicians to make on-the-spot treatment decisions for diabetes patients.

- In-office testing; no waiting for lab results
- Results in just 5 minutes
- Hands-on procedure time is less than 1 minute
- Simple, 3-step procedure
- CLIA waived
- No calibration
- No capital equipment required
- Enables A1C testing in every exam room
- No refrigeration necessary if used within 4 months

### #5068A, Hemoglobin Like Control Kit

(147-6067) .....ea

Contains: 2 vials of ea control: high & low.

### #6011A, Microalbumin/Creatinine

Reagent Kit

Detects and monitors

microalbuminuria, an early indication of kidney disease. Achieve test results in just 7 minutes from a urine specimen, using the DCA™ Vantage Analyzer. Existing DCA analyzers may be updated with a new program card.

(147-8917) .....10/pkg

CPT® Codes: #82043QW/#82570QW

### DCA Microalbumin/Creatinine Control Kit

#6012A

(147-8477) .....ea

Contains: 2 vials of each control (high & low) & reconstitution fluid.

## Take a new look at diabetes care.

Enhanced and improved patient care

## Answers for life.

Offer your patients enhanced care:

- HbA1c results in minutes allows adjustment of patient treatment during the office visit
- Immediate results reduce the need of costly and inconvenient patient call-backs and return visits
- NGSP certified HbA1c test with excellent correlation to reference methods ensures confidence in the results
- Easy to perform CLIA-waived HbA1c test can be performed in any clinical setting

## SIEMENS

### CLINITEK® Microalbumin Test Strip

Test for semiquantitative determination of microalbumin/ creatinine in urine. Semiquantitative tests for protein (2–4 mg/dl) and creatinine. Includes an A:C ratio result.

- Dip-and-read test for albumin and creatinine in urine
- Determines an A:C ratio for greatest accuracy
- Use a random urine sample—reduces need for a 24-hour collection
- Timeframe: 60 seconds
- CLIA waived on CT Status Analyzer

#2083  
(147-4712).....25/box

CPT® Codes: 82044

### #6011A, Microalbumin/Creatinine Reagent Kit

Detects and monitors microalbuminuria, an early indication of kidney disease. Achieve test results in just 7 minutes from a urine specimen, using the DCA™ Vantage Analyzer. Existing DCA analyzers may be updated with a new program card.

(147-8917) .....10/pkg

CPT® Codes: #82043QW/#82570QW

### HemoCue® Albumin 201 System

Can be used for quantitative determination of low levels of albumin in urine for the purpose of screening, diagnosis, monitoring, and supporting clinical evidence in the treatment of microalbuminuria.

The system consists of a small, specially designed analyzer and individually packaged microcuvettes containing freeze-dried reagent. The test is performed at the point-of-care, using a microcuvette filled by capillary action.

To obtain a quantitative result, fill the microcuvette, place it in the analyzer, and read the result. The system is based on an immunoturbidimetric reaction using antihuman albumin antibodies. The antigen-antibody complex creates turbidity, which is measured photometrically at 610 nm. The albumin concentration is proportional to the turbidity, and the result is shown on the display in mg/L.

Analyzer Kit with 1 Box of Microcuvettes  
(111-5593) .....ea

Albumin Microcuvettes  
(111-5591) .....50/box

### OSOM® ImmunoDip® Urinary Albumin Test

Rapid urinary albumin test for microalbuminuria to aid in the early detection of kidney disease.

- Easy to use: simply place test device into urine sample
- Fast: results in 3 minutes
- Accurate: albumin, greater than 18 mg/L indicates positive result
- Specificity 99%; Sensitivity 98%
- 18-month shelf life
- Room-temperature storage
- CLIA waived

## URISPEC™ GP+A URINE REAGENT TEST STRIP

Test for glucose and protein, with an ascorbic acid test for accuracy.

- Protein and glucose
  - Ideal for metabolic, kidney, and diabetic monitoring
  - Dip and read in 60 seconds
- (100-6567) ..... 100/btl

**HENRY SCHEIN®**

## URISPEC™ 11-WAY URINE REAGENT TEST STRIP

Urine Reagent Test Strips

For urinalysis by the dip-and-read technique. Similar to all Multistix® 10 SG Plus Ascorbic Acid. Tests for glucose, bilirubin, ketone, specific gravity, blood, pH, protein, urobilinogen, nitrite, and leukocytes. Also includes additional ascorbic acid analyte pad. The importance of the addition of an ascorbic acid analyte pad is that the glucose test must be repeated if the ascorbic acid reaction is positive. An ascorbic acid content of as little as 5 mg/dL (0.3 mmol) can interfere with a glucose assay in low concentrations. As with glucose detection, blood detection is also disturbed by low concentrations of ascorbic acid, whereas high ascorbic acid concentrations can interfere with the nitrate and bilirubin test zones.

- Unique “read all” feature at 60 seconds
- Glucose, bilirubin, ketone, specific gravity, blood, pH, protein, urobilinogen, nitrite, and leukocytes
- Reader available
- Room-temperature storage

(102-2285) ..... 100/btl

CPT® Codes: 81000/81001/81002/81003

**ABLE TO  
BE USED

## Uri-Check® Plus

#3000UC, CLED Agar/EMB Agar  
A semiquantitative dip-slide culture system for the screening and early detection of urinary tract infections. More than 100,000 bacteria per mL indicates infection. 1½" diameter with patient label affixed to vial. Refer to Uri-Check reference chart to help identify bacterial growth present. 3–5 month shelf life. Not returnable. Requires Boekel's Micro Incubator  
#260700 (100-6303).  
(224-9604) .....10/box

## Uri-Check® Test Kit

#1000UC, CLED Agar/EMB Agar  
A semiquantitative dip-slide culture test for the detection of urinary tract infections. Kit includes 1" vials and caps, paddles slightly smaller than 1", and patient labels affixed to the outside of the vial.  
#1000UC, Test Kit  
(224-7373) .....10/box

## Uricult CLED/EMB

A simple, self-contained urine test method for the detection of bacteria that commonly cause urinary tract infections. Uricult urine-culture paddles are capable of detecting bacteriuria concentrations as low as 1,000 CFU/mL of urine.

#1000, Uricult

(120-9110) .....10/box

Contains: paddles, patient ID stickers & package insert.

## Accutest® Uriscreeen™ Test

- Rapid urinary-tract infection screen test for bacteriuria and presence of somatic cells in urine
- Detects true infections with high sensitivity and high NPV
- Positive screening result indicates presence of bacteria and/or somatic cells

(106-9335) .....20/box

### CLINITEK Advantus™ Analyzer

With Bar Code Reader

For laboratories or practices requiring medium to high throughput (up to 500 tests per hour). Respond to demands for higher productivity and high quality. Streamline your workflow with flexible operation. Immediate start-up. Automatic calibration, network ready, and offers the widest range of test options. Added QC features.

- Easy-to-use color touch-screen
  - Ability to consolidate microscopy results onto one patient record
  - QC lockout available or automatic prompting if regimen is not followed
  - Testing flexibility with simple, one-touch switching between different strip configurations
  - 3 sieve functions—confirmatory and microscopic—to flag abnormal results for quick review
  - Convenient data retrieval for up to 500 patients by patient ID
  - 200 control results
  - Streamlined operation with immediate start-up
  - Improve efficiency with nonpacing processing
  - Improve accuracy with automatic calibration for every strip
  - Continued productivity boost with throughput of 7 seconds per sample
  - Minimize errors with simple, bar code identification of sample, color, and clarity values
  - Flexibility in reporting options, on-screen display, printout and/or uploading to laboratory information system

Your Fave?**

# Critical numbers to know.

## How Hemoccult ICT Can Help With Colorectal Cancer (CRC) Screening

**50** According to the American Cancer Society (ACS), people who have no identified risk factors (other than age) should begin regular CRC screening at age 50. In the United States, 49,960 people die from colorectal cancer annually. It is the third leading cause of cancer-related deaths in the United States when men and women are considered separately, and the second leading cause when both sexes are combined.

**2** Two is the minimum number of samples recommended by ACS for CRC Screening using fecal occult blood test (FOBT) or fecal immunochemical test (FIT).<sup>1</sup> You may have heard the "one day, one visit, one test" motto for FIT. However, after reading this, you'll understand why healthcare providers should say "good-bye" to the 1-day liquid-based FIT.

<b>FIT 3-Day</b>	<b>100%</b>
<b>FIT 2-Day</b>	<b>89%</b>
<b>FIT 1-Day</b>	<b>58%</b>

100% clinical sensitivity when you test with a 3-day FIT.  
89% clinical sensitivity when you test with a 2-day FIT.  
58% clinical sensitivity when you test with a 1-day FIT.  
Percentages based on clinical sensitivity.<sup>2</sup>

The fact is, 1-day FITs often miss sporadically bleeding polyps that are a precursor to colon cancer. That's why leading cancer authorities recommend multiple-day colon cancer screening over 1-day tests.

**14** All Hemoccult-brand FOBT and FIT products use a dry-slide technology with 14-day, room temperature sample stability. This stability allows the patient two weeks to complete a multiple-day test and return it to the physician.<sup>3</sup>

The QuickVue liquid-based FIT test has a 5-day room temperature sample stability.<sup>4</sup> Hemosure iFOBT requires sample collection tubes stored refrigerated (2-8°C) after sample collection, if not used immediately.<sup>4</sup> Hemoglobin is unstable in a liquid sample, degradation begins very quickly (<1 hour) and is catalyzed by elevated temperatures. Hemoglobin degrades as much as 50% in a single day.<sup>5</sup>

**0** Immunochemical fecal occult blood tests (FIT), such as Hemoccult ICT have zero diet and drug restrictions and detect intact human hemoglobin originating in the lower GI.

Now you know why it's time to say "good-bye" to 1-day liquid-based immunochemical fecal occult blood tests (FIT).

Finally,

**1** The number of people your patient needs to ensure the best care and guidance for colorectal cancer screening, and that "1" is you!

**Be CRC Aware and let Hemoccult-brand help you become a CRC Life Saver.**

## HENRY SCHEIN® ONESTEP™ OCCULT BLOOD SINGLE SLIDE

- Detects hemoglobin through chemical reaction
- Compares to high-sensitivity products
- Room-temperature storage
- 100–2-hole slides and 100 sticks

(147-1246) .....100/box

Contains: 100–2-hole slides with both positive & negative on-slide monitors, 100 sticks & developer.

## HENRY SCHEIN®

### ONESTEP™ OCCULT BLOOD PATIENT MAILER

Effective and rapid method for detecting occult blood in stool. Aids in diagnosis of asymptomatic gastrointestinal problems such as colorectal cancer, ulcers, polyps, anemia, and diverticulosis.

- Detects hemoglobin through chemical reaction
- Compares to high-sensitivity products
- Room-temperature storage

(147-7182) .....50 kits/box

Contains: 50 triple 2-hole slides, 150 sticks, developer & 50 US postal mailers.

## Hemoccult II® Dispensapak™

100-Patient Kit  
(254-5061) .....ea

Contains: 100 patient kits, 6–15 mL bottles developer & 1 product instruction.  
Kit contains: 1 Hemoccult II triple-test card, 3 applicators & 1 illustrated diet/test instructions.  
Barrier mailing pouch may be purchased separately.

## Hemoccult® Single-Test Card

#60151A  
(254-9052) .....ea

Contains: 100 Hemoccult single-test cards, 2–15-mL bottles of developer, 100 applicators & 1 product instruction manual.

## Hemoccult® Tape Dispenser Kit

(254-8235) .....2/box

Contains: Hemoccult tape dispenser (100 tests/dispenser), 1–15-mL bottle developer, & product instructions.

## Hemoccult® Barrier Mailing Pouch

Designed to meet US Postal Service regulations.

(254-6204) .....100/box

## Hemoccult® Developer

Most clinically proven and widely used FOBT. Trusted for over 30 years.

15-mL Bottle  
(254-2360) .....ea

## Hemoccult II® SENSEA® Dispensapak™ Plus

The fecal occult blood test that provides improved readability versus Hemoccult and other standard FOBT products.

- Easier readability
- Higher clinical sensitivity
- Detects more true positives

#64130A, 40-Patient Kit  
(254-4454) .....ea

Contains: 40 patient kits, 2–15-mL bottles developer & 1 product instruction manual.  
Patient kit: 1 Hemoccult II® SENSEA triple-test card, 3 flushable sample collection tissues, 3 applicators, 1 illustrated diet & test instructions, 1 patient pamphlet & 1 Barrier® mailing pouch.

#61200A, Hemoccult II Slides  
(224-9819) .....102/box

## Hemoccult® SENSEA® Single-Test Card

#64151A  
(254-3896) .....ea

Contains: 100 Hemoccult SENSEA single-test cards, 2–15-mL bottles developer, 100 applicators, & 1 product instruction manual.

Hemoccult® SENSEA® Developer  
(254-8308) .....ea

## Hemoccult II® Dispensapak™ Plus

Most clinically proven and widely used FOBT. Trusted for over 30 years.

#61130A, 40-Patient Kit  
(254-5748) .....ea

Contains: 40 patient kits, 2–15-mL bottles developer & 1 product instruction manual.  
Kit contains: 1 Hemoccult II triple-test card, 3 flushable sample collection tissues, 3 applicators, 1 illustrated diet & test instructions, 1 patient pamphlet & 1 Barrier mailing pouch.

## Hemoccult II® Sensa® Elite Dispensapak

- Easier diet and patient instructions
- Easier sample collection
- Easier processing

(331-2723) .....40/box

**HENRY SCHEIN®**

## ONESTEP+ iFOB OCCULT BLOOD MONOCLONAL ANTIBODY KIT

Innovative kit designed to avoid increased costs caused by noncompliant patients.

- Patient takes home stick and card only (compare to patient takes buffer tubes home)
- 30-day sample stability (compare to 4-8 day)
- Monoclonal; no dietary restrictions
- Clean in-office sample handling
- Multiple-site accuracy

Cassettes

**(900-4414)**.....10/kit

Contains: 10 cassettes & buffer tubes.

25-Test Complete Kit

**(900-4413)** .....25/kit

Contains: mailing cards kit, cassettes & buffer tubes.

20-Patient Mailer Kits

**(900-4416)** .....20/kit

Contains: sticks, card mailer & instructions.

All-inclusive Test Kit

CPT® Code: 82274QW/G0328QW

## HEMOSURE® iFOB TEST

-Immunochemical Fecal Occult Blood Test (FIT)

**Clinically and Financially the right choice  
for Colorectal Cancer Screening (CRC)**

*"The ACG supports the joint guideline recommendation that older guaiac-based fecal occult blood tests be abandoned as a method for CRC screening... the ACG recommends the FIT as the preferred cancer detection test."*

## QuickVue® iFOB Test

- Results in 5 to 10 minutes
- Analytical sensitivity: 50 µg hHb/mL buffer or 50 µg hHb/g feces
- Specificity: specific to human hemoglobin
- Agreement is 98% when using quality control specimens
- Specimen collection tube doubles as convenient, sanitary dispenser
- Self-contained test cassette
- Bold burgundy end points for ease in reading and interpreting results
- Room-temperature storage with 24-month shelf life from date of manufacture
- External controls available separately

Complete Test Kit  
(950-2866) .....20/box  
Tray Pack  
(227-2458) .....50/box  
Control

## Hemosure® iFOB Tests

- Best value package (792-8076) \*40% more collection tubes and home kits
- 5x higher reimbursement (ROI)
- No dietary or drug restrictions
- Specific to human hemoglobin
- Higher patient compliance, due to ease of use
- Easy-to-read results, similar to pregnancy test
- User friendly and more sanitary
- Complete with home kit
- CLIA waived

## Hemoccult® ICT

Next-generation fecal occult blood test (FOBT) for colorectal cancer screening. Specific for human hemoglobin, this immunochemical test eliminates all diet and drug restrictions. Specific for lower GI bleeding, which provides fewer false positives and a reduction in unnecessary invasive procedures.

- CLIA waived; easy test procedure
- Screening reimbursement code: G0328QW

#395066A, Screening Kit  
(834-3249) .....ea

Contains: 1 box of 40 patient screening kits. Each patient screening kit contains: 1 dispensing envelope with patient instructions, 3 Hemoccult ICT collection cards, 3 flushable collection tissues, 3 applicator sticks & 1 mailing pouch.

#395067A, Test Kit  
(834-6389) .....ea  
Contains: 20 test devices & 1–1-mL bottle Hemoccult ICT buffer (to be used with Hemoccult ICT collection cards & patient screening kits).  
#395068A, Controls  
(834-5620) .....4/box  
2-Day Patient Screening Kit  
(237-0085) .....50/box  
Contains: 1 dispensing envelope, 2 Hemoccult ICT collection cards, 2 flushable collection tissues, 2 applicator sticks & 1 mailing pouch.  
#395065A, Collection Card Set  
(834-7610) .....ea  
Contains: 100 cards, 100 applicator sticks, physician instructions & sample collection instructions.

## Clearview iFOB Test

#8111KCV, iFOB Complete  
(512-0005) .....30/box

Contains: 30 individually pouched test cassettes, 50 specimen collection tubes, 50 patient-return mailers, 50 specimen pouches, 50 absorbent tissues & 100 collection papers (2 per mailer).

#8113KCV, iFOB Complete

NEW  
3 Sec. Test

## VS-SENSE™ Test

Rapid Acidity Test for Evaluation of BV and Trichomonas

The VS-SENSE™ Test is comprised of a vaginal swab, coated with an innovative proprietary polymer. When the polymer, which is yellow before use, contacts fluids with the combination of pH level, and buffer capacity, which cross a specific threshold, the user observes a blue or green stain on the yellow background.

The VS-SENSE offers immediate results without the need to:

- Use a color scale
- Send a sample to a lab
- Operate time consuming pH paper strips
- Operate time consuming testing devices

Positive for BV or Trichomonas

Negative - Possible yeast infection

Accuracy over 90%

Reimbursed - CPT 83986QW

To order, call your Henry Schein representative at  
1-800-772-4346 and ask for item code 411-0001

# pHIZATEST™

brand nitrazine indicator paper

- **Compare to NitraTest™ and Save:**  
Economical compared to higher priced nitrazine papers
- Used to detect presence of amniotic fluid in vaginal secretions during late-term pregnancy
- FDA Listed, used in hospitals around the world
- Micro Essential Laboratory has been making nitrazine indicator paper for more than 50 years

**MICRO//ESSENTIAL**  
LABORATORY

established in 1934  
THE WORLD'S LEADING DEVELOPER & MANUFACTURER OF  
pH TEST PAPERS, pH BUFFER STANDARDS & SPECIALTY TEST PAPERS.

# BD Affirm™ VPIII Microbial Identification System

## The Problem:

### Mixed vaginal infections.

One of every four vaginal infections are caused by two or more organisms: *Candida* species, *Gardnerella vaginalis* or *Trichomonas vaginalis*.

Failure to diagnose these common causes of vaginitis can carry significant risk for your patients. Trichomoniasis and bacterial vaginosis (BV) are associated with increased risk of HIV infection, delivering preterm, low birth weight babies and, if untreated, PID.<sup>1,2</sup>

## The Solution:

### 1 molecular test that detects & differentiates 3 organisms.

The BD Affirm™ VPIII system quickly identifies and differentiates three pathogens from one single test. The Affirm VPIII technology provides RNA accuracy to enable targeted therapies.

- Results in < 45 minutes
- Enables proper therapy, the first visit
- Unaffected by difficult specimens: menses, sperm or creams from self medication.<sup>3</sup>

Learn more about Affirm VPIII testing in your laboratory, call 800.553.3470.

<sup>1</sup> Trichomoniasis, CDC, Dhs STD Fact Sheets Sept 2000.

<sup>2</sup> Bacterial vaginosis, CDC, Dhs STD Fact Sheets Sept 2000.

For Cardio Profiler, S.O.B. and Cardiac Panel

5 x 0.25 mL

#88753  
(111-9841) .....5/box

## BIOSITE

NEW DIMENSIONS IN DIAGNOSIS

### Triage® Cardio Profiler Panel

Measurement of 4 cardiovascular markers: troponin, CR-MB, myoglobin, BNP. Results in approximately 15 minutes. Results read by Triage MeterPro™ meter.

#97100, Panel  
(706-7343) .....25/box

## BIOSITE

NEW DIMENSIONS IN DIAGNOSIS

### Triage® MeterPro™ Meter

High-performance, comprehensive cardiovascular and drugs-of-abuse testing in the laboratory or at the point of care (POC). Designed to provide diagnostic results quickly and easily. Quantitative diagnostic panel results are displayed and printed in easy-to-read numbers and highlighted when the result is above the cutoff. Qualitative diagnostic panel results are displayed as positive (POS) or negative (NEG), eliminating the need for interpretation of lines that often hamper qualitative diagnostics.

- 16 immunoassays available
- Results in about 15 minutes
- Whole blood, plasma, or urine
- Customizable test panels

- Onsite training and implementation support
- Results printed, displayed, and interfaceable
- Full connectivity support

NEW DIMENSIONS IN DIAGNOSIS

### Triage® D-Dimer Test

Rapid, quantitative immunoassay to aid in the assessment and evaluation of patients suspected of having disseminated intravascular coagulation (DIC) and thromboembolic events, including pulmonary embolism (PE) and deep-vein thrombosis (DVT).

- Performed on Triage® meters
- Provides rapid, quantitative results in approximately 15 minutes
- Utilizes highly sensitive fluorescence immunoassay technology

- Utilizes the 3B6 D-Dimer antibody, which demonstrates high clinical specificity for PE and DVT

### INRatio2® Monitor

Allows you to obtain a prothrombin time (PT) and international normalized ratio (INR) result using 1 drop of blood from a fingerstick.

- CLIA waived
- Easy to use
- Single-button operation
- 1-step auto turn-on with strip insertion
- Larger LCD screen and easy-to-read digits
- Small, 1-drop (15 µL), sample size
- Wider test-strip area for easier sample application
- Test results in under 1 minute
- Test strips do not require refrigeration
- 2-channel, on-board quality control runs on every test
- No need for external liquid quality control or extra strips
- Test strips are individually wrapped and stored at room temperature

### #INR2QS1 Quick Start #1

(111-3840) .....ea

Contains: analyzer, 1 box of 48 INRatio test strips, 50 Unistik® single-use lancets, 100 alcohol pads & 250 gauze brick pads.

### #INR2QS3 Quick Start #3

(111-3844) .....ea

Contains: analyzer, 3 boxes of 48 INRatio test strips (144 total), 150 Unistik® single-use lancets, 200 alcohol pads & 250 gauze brick pads.

### #INR2QS5 QuickStart #5

(111-6578) .....ea

Contains: analyzer, 5 boxes of 48 INRatio test strips (240 total), 250 Unistik® single-use lancets, 300 alcohol pads, 5 boxes of capillary tubes & 500 gauze brick pads.

### #INR2-6PK 6-Box Promo

(112-3230) .....ea

Contains: analyzer, 6 boxes of 48 INRatio test strips (288 total), 10 single-use lancets & 10 capillary tubes.

CPT® Code: #85610QW

### ProTime® Monitor

- Accepts and stores patient and/or operator ID for reduced transcription errors
- Automatic: sends results quickly and easily to printer, computer, or LIS
- Only system that offers flexibility of both onboard and optional external quality controls
- Thromboplastin reagent of ISI=1.0 (AHA, CAP, and WHO recommended)
- Off-meter sampling provides safety against disease transmission
- Bar-coded cuvette: no coding necessary
- Longer open-pouch stability: up to 16 hrs.

### CoaguChek XS® System

PT/INR Monitoring Solution

The next generation in point-of-care prothrombotin (PT) and international normalized ratio (INR) testing, this new system uses exclusive smart technology to help ensure accurate results and offers the flexibility and control that healthcare professionals need to confidently manage a wide range of anticoagulated patients. It is the only system to perform onboard quality control and determine patient results in a single test chamber.

- CLIA waived
- Neutralizes therapeutic levels of heparin and LMWH
- INR corrected for hematocrit within specified range; manage a broad array of patients with a single device

- Small sample size (10 µL) for easy dosing
- Strip allows dosing from either top or side for simple blood application
- Small, battery-powered, handheld meter for portability and efficiency
- New onboard controls; no external QC necessary
- Auto-on with strip insertion and auto-off capabilities
- 18-month strip shelf life; no refrigeration needed

### 3-Box Starter Kit

(108-1861) .....ea

Contains: XS Analyzer, 3 boxes of CoaguChek XS PT strips (144 total) & CoaguChek Lancets.

### 5-Box Starter Kit

(108-7757) .....ea

Contains: XS Analyzer, 5 boxes of CoaguChek XS PT test strips (240 total) & CoaguChek Lancets.

### CoaguChek XS® Plus System

Contains: CoaguChek® XS Plus Analyzer, 10 boxes (480 total) of CoaguChek XS PT test strips & CoaguChek lancets.

### CoaguChek XS® Test Strips

For XS and XS Plus Meters  
(891-7593) .....2 x 24/box

## Empowering Cardiovascular Treatment Decisions

**The right diagnostic tools** provide the timely, actionable data you need to make better in-office decisions that can improve your patient's quality of life.

### Complete Lipid Profile with the Cholestech LDX® System

Get your patients to goal, and experience a smarter, faster workflow that improves office efficiencies. CLIA waived Lipid Profile, Glucose, and ALT•AST results in 5 minutes.

### Track Coumadin® Patients with the INRatio®2 System

Empower face-to-face dosage change decisions that can help your patients stay in therapeutic range. CLIA waived, fingerstick PT/INR results in about 1 minute.

### Manage Heart Failure with the Triage® Meter

Diagnose, assess severity, and risk stratify your patients at risk for heart failure in approximately 15 minutes, right in your office. BNP test is CLIA waived for whole blood.

**Be empowered. Connect to rapid results. Make smarter decisions.**

## UNICO® Tube-Cubes®

Available in 3 configurations to accommodate practically all of your needs. Each cube measures 2 5/8" H x 2 7/8" W x 2 7/8" D. The 9-place version holds 8mm–16mm/10–15-mL tubes. The 4-place version holds 26mm–30mm/50-mL tubes. The single place version holds 66mm cups, alcohol dispensers, small flasks, and more.

- Invert and pour: tubes will stay in place
- Great for phlebotomy trays
- Organize and store samples in refrigerator or freezer

#54900, 9 Place, for 8mm–16-mm Tubes (112-4212).....4/pkg

#54400, 4 Place, for 26mm–30-mm Tubes (112-4210).....4/pkg

#54100, Single Place, for Up to 66mm Tubes (112-4214).....4/pkg

## UNICO® Tube Rack

Starting with a single 50-place T-Rack, you can attach as many racks as space allows. These patented racks attach together quickly and easily with their unique built-in T-connector, which allows the flexibility to attach as many racks as needed.

- Each rack holds up to 50 tubes of varying sizes in two 25-hole sections
- Top shelf has cross-referencing alphanumeric designation in order to track exact location of specific tubes in rack
- Attach additional T-Racks together; make a single large rack as big as needed
- Made of durable, autoclavable polypropylene; will not break or become brittle in low-temperature refrigerators
- Easy to clean and disinfect
- Arrives disassembled and can be snapped together in seconds
- Dimensions: 8 3/4" x 3 3/4" x 5 1/4"

#54500, 50 Place (Expandable) (111-7761).....ea

## UNICO®

### Tube-Cube® Carrier

Durable acrylic, and designed to hold any combination of Tube-Cubes. Available in 2-, 3-, and 4-place configurations. Provides a safe, convenient way to carry patient samples to the lab.

#54040 (112-4213).....4/pkg

### SmoothRack Test Tube Racks

Features include:

- 72-tube capacity
- 9.7" x 5.0" x 2.6"
- Autoclavable polypropylene
- Accommodates test tubes 10mm to 16mm in diameter

## UNICO™

### PowerSpin™ FX Centrifuge

Features a 6-place angled rotor designed for 2–10-mL tubes (maximum tube size up to 16mm x 110mm) and a fixed speed of 3400 rpm, generating 1350 RCF (g) for superior specimen separation. Set the 0–30-minute timer to desired run length.

- Maintenance-free, brushless motors run quietly at a fixed speed of 3400 rpm, emitting only 58dB, all with a low temperature rise
- Suction-cup rubber feet hold unit firmly in place while virtually eliminating vibration
- Lid features a gasket to reduce aerosol emissions, a window for strobe speed checks, and a safety interlock switch that cuts power to motor if lid is raised
- Accessories available on request: 8-place rotor and pediatric tube adapters
- 1-year manufacturer's warranty
- Dimensions: 10.2" x 11.8" x 7.9"
- Weight: 15 lb
- 115 V/60 Hz

#C806, Fixed Speed, 6 Place  
(715-5981) .....ea

## UNICO™

### PowerSpin™ LX Centrifuge

Spin blood, urine, fecal materials, or semen at the best speed for each type of specimen with this powerful, variable-speed, 6-place centrifuge. Maintenance-free, brushless motor runs quietly at a fixed speed up to 4000 rpm, emitting only 58dB, all with low-temperature rise. Suction-cup rubber feet hold unit firmly in place and virtually eliminate vibration. Lid features a gasket to reduced aerosol emission, a window for strobe speed check, and a safety interlock switch that cuts power to the motor if lid is raised. Angled rotor accepts 2–10-mL tubes (maximum tube size 16mm x 110mm). Accessories available upon request: 8-place rotor and pediatric tube adapters.

- Speed range: 300–4000 rpm, generating up to 1850 RCF (g)
- 30-minute timer
- 1-year warranty
- Dimensions: 10.2" x 11.8" x 7.9"
- Weight: 15 lb
- 115 V/60 Hz

#C-856, Variable Speed, 6 Place  
(715-2656) .....ea

## UNICO™

### Micro-Hematocrit Centrifuge

This powerful centrifuge, with all-metal housing, spins up to 24 microhematocrit tubes at 12,000 rpm. Tubes are held in place with a screw-down metal lid and replaceable rubber gasket/ring. The 15-minute mechanical timer has a bell tone to signal a completed run, while the electronic brake can stop the unit on demand. Metal lid features a safety-lid latch that cuts engine power if lid is lifted. Unit comes complete with a metal hematocrit reader tray. 1-year warranty.

#C-MH30  
(715-0877) .....ea

## UNICO™

### Vortex Mini Mixer

This economical vortex mixer is rugged and sturdy for the most demanding applications. Dual-mode switch lets you vortex continuously or intermittently using the touch mode: simply press your tube to the soft rubber mixing cup. Features speed control to adjust the vortexing velocity to your requirements.

- Powerful and quiet
- Variable speed up to 3000 rpm
- Switch from Auto to Touch mode
- Power On LED indicator
- 1-year limited warranty

#L-VM1000  
(110-0228) .....ea

## UNICO™

### Rock-IT™ Jr. Blood-Tube Rocker

A versatile rocker for hematology (blood) tubes prior to counting; also excellent for vials and gentle mixing of injectables. Nearly silent while gently completing 25 mixing cycles per minute. Platform is designed for 8 tubes and has a reversible pad that can be autoclaved. 1-year warranty.

Dimensions: 8.6" x 4.7" x 5"

#LTTR100, 8 Place  
(159-0730) .....ea

## UNICO™

### Rock-IT™ Blood Tube Rocker

A versatile rocker for hematology (blood) tubes prior to counting; also excellent for vials and gentle mixing of injectables. Nearly silent while gently completing 25 mixing cycles per minute. Platform is designed for 15 tubes and has a reversible pad that can be autoclaved. 1-year warranty.

Dimensions: 13.7" x 4.7" x 5"

#L-TTR200, 15 Place

## UNICO™

### IP730 Series Microscopes

Designed to provide crisp, clear imaging on a versatile and ergonomic platform. Available with 30° inclined binocular or trinocular heads. Features Seidentopf optical design with 55mm–75mm interpupillary distance adjustment. Both heads rotate 360° and lock in place with a thumbscrew. Eyepieces are standard with 10X 22mm extra-wide field eyepieces for viewing comfort and clarity. Available with a variety of optics and configuration choices.

#IP730, Advanced Binocular Microscope, Achromat  
Objectives: 4X, 10X, 40X, 100X Achromat  
(106-9122) .....ea

#IP730PL, Advanced Binocular Microscope, Plan  
Objectives: 4X, 10X, 40X, 100X Plan  
Illumination: 6 V/20 W Halogen  
(109-9806) .....ea

### #132000 Incubator

An excellent incubator for all in-office culture needs. Large capacity (0.8 cu ft) for busiest physicians' offices.

- Interior dimensions: 11½"W x 10½"H x 12"D; exterior dimensions: 13"W x 16¼"H x 14"D
  - See-through acrylic plastic door
  - Magnetic door latch
  - Pilot light and on/off switch
  - Adjustable nontip shelves
  - Maximum temperature: 60°C
- (100-8790) .....ea

## Transfer Pipettes

Plastic

- Packaged in convenient dispenser boxes
- Available in sterile and non-sterile versions
- Nontoxic and inert

#137135, 3 mL, Sterile, Graduated to 1 mL

## Research-Grade Centrifuge Tubes

15 mL (16.6mm x 120mm) Conical Centrifuge Tubes with Screw Caps  
Select sterile or non-sterile, clear scratch-resistant acrylic or translucent polypropylene tubes. All are top-quality centrifuge tubes with white printed graduations and a white writing area that eliminates the need for labels.

- Acrylic spin rate is 5000 rpm
- Polypropylene spin rate is 10,000 rpm
- All caps are made from high-density polyethylene (HDPE)

#6264, Polypropylene, Non-sterile, Bulk  
(280-5289) .....500/case

#6270, Acrylic, Sterile  
(185-8503) .....500/case

Contains: 25 per bag.

#6273, Acrylic, Sterile  
(424-7963) .....500/case

Contains: 50 per rack.

#6269, Polypropylene, Sterile  
(424-6254) .....500/case

Contains: 25 per bag.

#6271, Polypropylene, Sterile  
(243-5517) .....500/case

Contains: 50 per rack.

## Research-Grade Centrifuge Tubes

Select sterile or non-sterile, clear scratch-resistant acrylic or translucent polypropylene tubes. All are top-quality centrifuge tubes with white printed graduations and a white writing area that eliminates the need for labels.

- Acrylic spin rate is 5000 rpm
- Polypropylene spin rate is 10,000 rpm
- All caps are made from high-density polyethylene (HDPE)

50 mL, 30mm x 116mm Conical Centrifuge Tubes with Screw Caps

#6243, Polypropylene, Sterile  
(424-8999) .....500/case

Contains: 25 per rack.

#6242, Polypropylene, Non-sterile  
(424-9912) .....500/case

Contains: 25 per rack.

#6240, Polypropylene, Non-sterile  
(424-8018) .....500/case

Contains: 25 per bag.

#6241, Polypropylene, Sterile  
(424-5191) .....500/case

Contains: 25 per bag.

#6244, Polypropylene, Non-sterile, Bulk  
(424-5618) .....500/case

# Exceptional Quality Laboratory Supplies at Substantial Cost Savings

## Graduated Transfer Pipettes

Produced from a special grade of polyethylene (LDPE), our transfer pipettes are non-slippery which make them safer and more comfortable to use. The pipettes are packaged in convenient dispenser boxes and offered at super low prices.

7 mL graduated to 3 mL  
500/Dispenser Box  
Item no. 1208751

5 mL graduated to 1 mL  
500/Dispenser Box  
Item no. 8683691

3 mL graduated to 1 mL  
500/Dispenser Box  
Item no. 1858544

## 4 oz (120 mL) Specimen Cups

Perfect for urine collection. Features an easy-to-turn leak-resistant screw cap and molded graduation marks.

### Sterile Cups

- Trilingual patient ID label
- Individually wrapped to maintain sterility

100/CA Item no. 6066028

### Non-Sterile Cups

- Frosted writing area for patient information
- Bulk packaged

500/CA Item no. 6426596

## Premium Microscope Slides

- Pre-cleaned and ready to use
- Ground edges consistent with every slide
- Boxes are shrink-wrapped to protect against humidity and moisture
- Safety corners for comfortable handling
- Packaged: 72 slides per box

### Plain

Completely clear for full use of slide  
25 mm x 75 mm  
Item no. 8680622

### Frosted

Chemically etched on one end, one side  
25 mm x 75 mm  
Item no. 8036390

### White Frosted

Painted on one end, one side  
25 mm x 75 mm  
Item no. 8686492

**Globe Scientific**, a leading producer of disposable laboratory plasticware and glassware, offers an outstanding line of consumables designed for the most stringent laboratory protocols. With more than 26 years of experience and 500+ items to choose from, Globe Scientific's extensive line of products provides consistent high quality at considerable savings.

## Gram Stain Kits and Reagents

Used to stain for microorganisms from cultures or specimens by the differential Gram method.

#212539, Gram Stain Kit  
(106-2056).....4/pkg

Contains: 1-250-mL bottle ea of Gram crystal violet, Gram iodine (stabilized), Gram decolorizer, & Gram safranin.

#212524, Gram Stain Kit  
(645-2264).....4/pkg

Contains: 1-250-mL bottle of ea: Gram crystal violet, Gram iodine diluent with iodine concentrate, Gram isopropyl decolorizer & Gram safranin.

#212525, Gram Crystal Violet  
(116-6788).....4/pkg

#212527, Gram Decolorizer  
(224-5022).....4/pkg

#212531, Gram Safranin  
(343-3274).....4/pkg

#212542, Gram Iodine (Stabilized)  
(613-3242).....4/pkg

#212529, Gram Iodine (Unstabilized)  
(264-9099).....4/pkg

#212536, Acridine Orange Stain  
(610-4654).....ea

## Sedi-Stain™ Concentrated Reagent Stain

Stabilized modification of the Sternheimer-Malbin stain for use in the microscopic examination of urine sediment, which is generally recognized as a valuable diagnostic technique to permit rapid and accurate identification of intrinsic renal disease.

#421570, 12.5-mL Bottle with Dropper  
(168-9062).....ea

Contains: Crystal violet 0.10%, safranin O 0.25%, ammonium oxalate 0.03%, ethyl alcohol (SD-3A) 10%, & water & stabilizers 89.62%.

## Isopropyl Alcohol

99% Purified

1 gal  
(120-8443).....ea

## Alcohol-Anhydrous

ACS Reagent

Suitable for histology. Contains 90.5% ethyl alcohol, 4.5% methyl alcohol, and 5% isopropyl alcohol.

#1200-1GL, 1-gal Bottle  
(120-8724).....ea

Gordon  
Laboratories

## Monse's (Rx) Solution

- Used as a styptic in its undiluted form
- Soluble in water or alcohol

8-mL Unidose Vial  
(812-0005).....12/box

Gordon  
Laboratories

## Lugol's (Rx) Solution

- Used for staining of cervical and vaginal mucosa during colposcopic evaluations of abnormal Pap smears
- Less painful or irritating than alcoholic solutions when applied to cuts
- Potassium iodide added to increase the solubility of the iodine

#0111-8, 8-mL Unidose Vials  
(812-0004).....12/box

## Reagents Solutions

#400460, Acetone, 16 oz  
(309-2688).....ea

#400530, Potassium Hydroxide 10%, 4 oz  
(958-8858).....ea

## Have You Seen LabDAQ<sup>®</sup> Lately?

laboratory information system

### Recognized as "Top of the Class"<sup>SM</sup> Information System Vendor

- Consistently highly rated LIS software and company
- Superior after sales support
- Clients value our attention to detail and responsiveness to their needs

### Superior Onsite Training

- Laboratory staff is trained quickly and efficiently
- Training completed in your own lab environment
- No travel issues to worry about

### Established Connectivity Experts

- Installed in more than 2,300 laboratories
- Seamless integration with leading EHR, Practice Management and HIS systems
- Numerous bi-directional national and regional reference laboratory interfaces are available

\*Voted by readers of Advance for Administrators of the Laboratory

Have you seen LabDAQ lately?

See for yourself why Antek HealthWare  
was voted "Top of the Class" Information  
System Vendor for 2007 & 2008.

For more information, contact sales at 800.359.0911 ext. 3, or via email [sales@antekhealthware.com](mailto:sales@antekhealthware.com)

# Take the LABOR Out of Your Laboratory!

Let Alfa Wassermann chemistry analyzers  
do the work for you and your customers!

The ACE Alera® Clinical Chemistry System  
can help save time and money, and increase  
practice productivity and profitability.

Get a helping hand today!

Call your Henry Schein  
sales consultant for more details.

Need **all** the pieces,  
without the puzzle?

Immunoassay systems deliver new levels of laboratory efficiency, standardization, and cost effectiveness.

Hematology analyzers offer performance, value, and safety in an easy-to-use system.

Chemistry systems provide exceptional capacity for improved workflow and productivity.

Providing a test menu that matters featuring BMP, CMP, hepatic, lipid, renal, electrolyte and many more.

Total lab solutions from  
a single, reliable source.

Buying different products from different vendors can be highly perplexing — and a poor fit for your practice. Fortunately, there's a better way. Beckman Coulter offers proven, affordable solutions for Immunoassay, Chemistry, Hematology, Hemocult and Rapid Test Kits — from one convenient source. Thanks to walk-away instrumentation, broad testing menu, trusted quality and backing by one of the best support programs in the industry, all the pieces simply fall into place.

For a total laboratory solution that fits your individual needs, one call does it all.

800-526-3821 or visit [www.beckmancoulter.com/pcd](http://www.beckmancoulter.com/pcd).

# Immolute 1000 Technical Specifications

A touch-screen monitor  
and state-of-the-art  
Windows 2000 software  
for easy navigation

Automatic onboard dilutions  
for selected assays

Switching between the  
standard operating mode  
and the Turbo mode on the  
IMMULITE 1000 system is  
quick and easy to perform.  
The IMMULITE 1000 has all  
of the advantages of a floor  
model in a benchtop system.

## Easy to Operate

- True random access operation
- 5-minute daily startup
- Continuous loading of samples and Test Units
- Minimal maintenance
- Easy access to working components

## Productive

- Routine, esoteric and STAT assays
- Throughput of up to 120 tests/hour
- No load lists required
- Onboard dilutions for selected assays

## Extensive Menu

- Over 80 assays available
- Continual new assay development focused on disease management
- True testing consolidation

## Turbo Assays

- Test results in under 15 minutes
- NT-proBNP,\* Troponin I, Myoglobin, CK-MB, Intact PTH and hCG
- Optional Turbo cart to move the system wherever it is needed

## Intuitive Software

- Windows® 2000 operating software
- Flexible "from anywhere to anywhere" system navigation
- LIS interface with host-query capability
- Remote Diagnostics—facilitates superior customer support
- Built-in QC management
- Automated Levey-Jennings and graph generation

## Proven Technology

- Enzyme-amplified chemiluminescence allows third-generation performance on selected assays
- Proprietary wash technique achieves highly efficient separation for extremely low nonspecific binding, resulting in excellent assay performance

# MOVING FORWARD WITH SOL

## Patient Collections

### Take Advantage of MaxCollect From HSFS.

A systematic business model for collecting delinquent patient accounts is vital to your practice's success. MaxCollect is a simple, consistent system that will accelerate your cash flow while adding more profits to your practice. You will dramatically increase your recovery rates while lowering your collection costs.

- Systematic approach • Effectively collect outstanding accounts
- Lowest cost to collect funds—as little as 5% • Proceeds paid directly to provider • Increase profit margin
- Accelerate cash flow
- Every account worked thoroughly

## 2010 Small Business Tax Benefits

### Decrease your taxable income and increase cash for your other needs!

Section 179 encourages small-business owners to invest in equipment by allowing them to deduct a substantial amount of the asset's value in the first year. Taxpayers who acquire new equipment—including machinery, furniture,

fixtures, and off-the-shelf software—may be able to deduct up to \$134,000 of the value during the first year of ownership. Capital-equipment expensing is limited once fixed-asset additions for the year exceed \$530,000.
